Verizon Wireless Calling Plan Optional Features

Calling Plans and Associated Charges: Corporate Subscribers may activate Wireless Service on the calling plans included with this Agreement, as well as eligible Verizon Wireless consumer/retail calling plans, subject to the terms of this Agreement. Employee Subscribers may activate Wireless Service on eligible Verizon Wireless consumer/retail calling plans, as well as any calling plan included with this Agreement that specifically allows Employee Subscribers, subject to the terms of the Verizon Wireless retail customer agreement. On Family SharePlan® calling plans, monthly access fee discounts apply only to the primary line of service. Subscribers may take advantage of promotions or purchase Equipment at corporate pricing, but this may require a Line Term extension after initial activation. Some calling plans or monthly access price points may not be available in all markets. Subscriber's first partial and full month's access and any activation fees are payable in advance and will not be refunded after activation of the Wireless Service. Activation fees are waived for all Corporate Subscribers. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the Subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on Subscriber's phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to the next full minute. Unused minutes and/or Megabytes are lost. On outgoing calls, charges start when Subscriber first presses **SEND** or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after Subscriber presses **END** or the call otherwise disconnects. Calls made on the Verizon Wireless network are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free; however, airtime may be charged when dialing toll-free numbers. All features may not be available in all Verizon Wireless markets.

Anytime Minutes: Anytime Minutes apply when making or receiving calls from a calling plan's rate and coverage area. Coverage information is available at www.verizonwireless.com. In order to use some VZEmail features and applications, Subscriber's PC (or server where applicable) must be powered on, able to receive e-mail, and have Equipment manufacturer software (BlackBerry Desktop, Wireless Sync or Good Mobile Messaging) installed. If Equipment is turned off or if the Subscriber travels outside the NationalAccess service area, e-mail messages will be automatically stored for up to 7 days and forwarded when the Subscriber returns to the NationalAccess service area. Receiving e-mail attachments and graphics may be limited based on the Equipment model or software. With some Equipment, e-mails received may display only the first 2 kilobytes of information with additional 2 kilobyte increments delivered at the Subscriber's request.

Permitted Uses: VZEmail and VZAccess Plans and Features may be used for accessing the Internet and for such uses as: (i) Internet browsing; (ii) email; (iii) intranet access (including accessing corporate intranets, email and individual productivity applications made available by your company); (iv) uploading, downloading and streaming of audio, video and games; and (v) Voice over Internet Protocol (VoIP).

Prohibited Uses: While most common uses for Internet are permitted by a subscriber's Data Plan, there are certain uses that cause network capacity issues and interference with the network. These are not uses intended for Data Access plans and are therefore prohibited. Examples of prohibited uses include the following: (i) server devices or host computer applications, including, but not limited to, continuous Web camera posts or broadcasts, automatic data feeds, automated machine-to-machine connections or peer-to-peer (P2P) file sharing applications that are broadcast to multiple servers or recipients such as they could enable "bots" or similar routines (as set forth in more detail in (iii) below) or otherwise denigrate network capacity or functionality; (ii) as a substitute or backup for private lines or dedicated data connections; (iii) "auto-responders," "cancel-bots," or similar automated or manual routines which generate amounts of net traffic that could disrupt net user groups or email use by others; (iv) generating "spam" or unsolicited commercial or bulk email (or activities that facilitate the dissemination of such email); (v) any activity that adversely affects the ability of other users

or systems to use either Verizon Wireless Services or other parties' Internet-based resources, including the generation or dissemination of viruses, malware, or "denial of service" (DoS) attacks; (vi) accessing, or attempting to access without authority the information, accounts or devices of others, or to penetrate, or attempt to penetrate, security measures of Verizon Wireless' or another entity's network or systems; or (vii) running software or other devices that maintain continuous active Internet connections when a computer's connection would otherwise be idle or "keep alive" functions, unless they adhere to Verizon Wireless' requirements for such usage, which may be changed from time to time. This means, by way of example only, that using these Data Plans or Features for P2P file-sharing services, web broadcasting, or for the operation of servers, telemetry devices and/or Supervisory Control and Data Acquisition devices is prohibited. If usage on a Data Plan or Feature that does not include a specific monthly megabyte allowance or that is not billed on a pay-as-you-use basis exceeds 5 gigabytes per account line during any billing period, we reserve the right to reduce throughput speed to a maximum of approximately 200 kilobits per second for up to thirty days. You may assess and monitor your own data usage during a particular billing period, including during the Return Period under your Worry Free Guarantee, by accessing My Account online, or by contacting Customer Service. BroadbandAccess and NationalAccess data sessions automatically terminate after 2 hours of inactivity, unless Subscriber has Mobile IP (MIP) capable Equipment. Verizon Wireless reserves the right to take measures to protect our network and other users from harm, compromised capacity or degradation in performance. These measures may impact your service, and we reserve the right to deny, modify or terminate service, with or without notice, to anyone we believe is using Data Plans or Features in a manner that adversely impacts our network. We may monitor your compliance, or the compliance of other users, with these terms and conditions, but we will not monitor the content of your communications except as otherwise expressly permitted or required by law. [See verizonwireless.com/privacy.]

Megabyte (MB) Data Plans: Megabyte allowance and charges for kilobytes over the monthly allowance apply to NationalAccess and BroadbandAccess data sessions and are rounded to next full kilobyte at end of each billing cycle. Only total of kilobytes transmitted above allowance each billing cycle may appear on bill.

When you use Microsoft's Exchange ActiveSync, Notify's NotifyLink, or Intellisync's Intellisync Mobile Suite, you may be charged for an incoming Text Message every time you receive an email or other update. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Even within a coverage area, there are many factors, including a customer's equipment, terrain, and proximity to buildings, foliage, and weather that may impact service. An all-digital device will not operate or be able to make 911 calls when digital service is not available. Some of the coverage area includes networks run by other carriers; some of the coverage depicted is based on their information and public sources and we cannot ensure its accuracy.
